

Brynn Kurtzman, Assoc. AIA, LEED® AP BD+C
Technical Designer at Gensler DC

Brynn Kurtzman, Assoc. AIA, LEED® AP BD+C, and Technical Designer at Gensler DC, has been engaged in the built environment for over a decade as both a designer and environmental steward. She is recognized as one of the first Fitwel Ambassadors accredited by The Center for Active

Design. Her professional background spans a diverse breadth of experience from mixed-use, multi-family, and hospitality design to managing green building projects of all sizes. The commitment she's shown over the years to identify client-focused and effective solutions that promote high-performance buildings and occupant health and wellbeing has made her an expert in the field of sustainable design.
