

Dear Educators,

NEWH, Inc is proud to host the annual Green Voice Sustainable Design Competition scholarship. The NEWH Green Voice Design Competition provides students with the opportunity to showcase their design skills while utilizing the very best in sustainable design products and practices. Our sponsors have generously donated the awards – one to the winning undergraduate student and one to the winning graduate student with airfare/lodging to the awards event at BDNY in New York in November 2021.

As an educator we, at NEWH, Inc. encourage you to use the competition as a class project or part of your curriculum. Student Criteria remains the same, individual or teams of 2 students, and all submissions will be judged on competition criteria and professional appearance by the NEWH, Inc. Scholarship Committee. If you so choose to use the Green Voice Design Competition as part of your curriculum, the instructor must evaluate all projects and submit no more than the top five (5) projects for consideration. Each student must include a submittal form as part of their project.

For more information on the Green Voice Design Competition please visit our website:

<https://newh.org/scholarship/green-voice-design-competition/>

If you have any questions, regarding making this part of your curriculum, please email us at

newh.scholarship@newh.org

Sincerely,

Jennifer Wellman – VP | Scholarship, NEWH, Inc.

To submit projects, please email newh.scholarship@newh.org for Dropbox link.
