

Brian Ensign, RCDD, NTS, OSP, RTPM, CSI

Superior Essex International

Vice President – Strategic Account Solutions

BICSI President

Ensign's industry experience expands the last 25 years which includes his current position with Superior Essex International as the Vice President – Strategic Account Solutions and previously with Legrand as the Director of Technology. His experience also includes positions of increasing responsibility with Leviton Manufacturing Co., Inc, including Director of National Accounts and with Intertek Testing Services (ETL) as a Senior Staff Engineer.

Ensign holds a Bachelor of Science Degree in Electrical Engineering Technology from the SUNY Polytechnic Institute along with his RCDD, NTS, OSP, and RTPM designations from BICSI. He is the current BICSI President and is serving as the Chairman of the BICSI Board of Directors. Brian has been an active participant in the TIA, IEEE, and BICSI standards committees and continues to track the progression of such.

Ensign is a frequent public speaker of industry, technology, and trends at various industry events and functions.
